

PROTECTIVE SCREEN FOR COUNTER

We are
MANUFACTURERS

We have protection screens made of methacrylate, optimal for division and protection against possible infections. Its use is suitable for public spaces such as banks, consultancies, notaries, etc., as well as for businesses with attention to the public, since its design allows the flow of money or documents on both sides. It is fully transparent, thus offering glass-like optical visibility. In addition, it allows to adapt to any type of surface without the need to use tools for its assembly.

Delivery time approx. 48 h.

Piece size:
720×650(h)mm & 1000×650(h)mm
